I wish my legacy to support:

- Priority Projects
- A Specific Project

This document is an indication of intent only and does not commit you in any way. It lets us know about your intentions and provides us with the opportunity to acknowledge your support during your lifetime and to keep you informed of National Breast Cancer Research Institute developments.

NATIONAL BREAST CANCER RESEARCH INSTITUTE

Symptomatic Breast Unit,
University Hospital Galway, Galway, Ireland.
T: 091 863 917
E: Hello@BreastCancerResearch.ie

THROUGH YOUR WILL, HELP SUPPORT BREAST CANCER RESEARCH

NATIONAL BREAST CANCER RESEARCH INSTITUTE

www.breastcancerresearch.ie

ABOUT THE CHARITY

The National Breast Cancer Research Institute is a voluntary charity that funds a comprehensive research programme at the National University of Ireland, Galway. The effects of our research are felt nationally and globally. We believe that the way to improve the outcome from breast cancer is earlier diagnosis and individualisation of treatment. In 2011, the National Breast Cancer Research Institute donated €1 million to the development of the Lambe Institute for Translational Research at the National University of Ireland, Galway. This modern, functional facility is enabling the research team to develop its own research field and expand collaborative work. The charity is largely funded from voluntary fundraising activities and by creating this legacy you will be ensuring that this research continues into the future.

A MESSAGE FROM PROFESSOR MICHAEL KERIN RESEARCH DIRECTOR

Your endorsement of our mission to fund the research programme is both invigorating and inspiring. It enhances our research programme at the Lambe Institute in the

National University of Ireland Galway. Our researchers are currently working on major national and international projects to improve the diagnosis and treatment of breast cancer. This research spans the continuum from bench to bedside and

includes exciting developments addressing the genes that are responsible for breast cancer, newer molecular treatments, role of stem cells in breast reconstruction and innovative new diagnostic devices.

Michael Kerin
Research Director
National Breast Cancer Research Institute

Help Secure Our Future

If you wish to leave a gift to the National Breast Cancer Research Institute, we would be delighted to discuss this with you and your solicitor. It is even possible to establish a special fund in memory of a family member or friend.

There are two simple ways to give:

1. WRITING A WILL

Speak to your solicitor about making a will to include the National Breast Cancer Research Institute. Unrestricted gifts allow the charity to allocate funds to the areas of greatest need. However, if there is a specific area you wish your legacy to benefit, this can of course be done.

2. CHANGING AN EXISTING WILL

If you have already made a will and you wish to add a gift to the National Breast Cancer Research Institute, you can ask your solicitor to add a codicil in a similar way to the original will.

**Our charity number is 20025175.
Feel free to bring this leaflet to your solicitor.**
